# OUR COMPANY

Created by Godrej Properties and Pelli Clarke Pelli Architects, Godrej One is our new global headquarters at Vikhroli in Mumbai. The name is symbolic of the convergence of several Godrej Group companies under one roof for the first time. It also draws from the fact that this is the first unit of The Trees, our larger redevelopment plan for Vikhroli.

Godrej Consumer Products is a leading emerging markets company. As part of the 119-year young Godrej Group, we are fortunate to have a proud legacy built on the strong values of trust, integrity and respect for others. At the same time, we are growing fast and have exciting, ambitious aspirations.

Today, our Group enjoys the patronage of 1.1 billion consumers globally, across different businesses. In line with our 3 by 3 approach to international expansion at Godrej Consumer

Products, we are building a presence in 3 emerging markets (Asia, Africa, Latin America) across 3 categories (home care, personal wash, hair care). We rank among the largest household insecticide and hair care players in emerging markets. In household insecticides, we are the leader in India, the second largest player in Indonesia and are expanding our footprint in Africa. We are the leader in serving the hair care needs of women of African descent, the number one player in hair colour in India and Sub-Saharan Africa, and among the

leading players in Latin America. We rank number two in soaps in India and are the number one player in air fresheners and wet tissues in Indonesia.

But for us, it is very important that besides our strong financial performance and innovative, much-loved products, we remain a good company. 24 per cent of the holding company of our Group is held in a trust that invests in the environment, health and education. We are also bringing together our passion and purpose to make a difference through our 'Good &

Green' approach to create a more inclusive and greener India.

At the heart of all of this, is our talented team. We take much pride in fostering an inspiring workplace, with an agile and high performance culture. We are also deeply committed to recognising and valuing diversity across our teams.

# A MESSAGE FROM OUR CHAIRMAN

**Adi Godrej**

Chairman

**Dear Shareholders,**

I am very pleased to share with you that GCPL has delivered yet another strong and profitable performance in fiscal year 2016. This is despite the macroeconomic challenges we faced in many of our geographies. Overall, we continue to outperform both the FMCG sector and the home and personal care categories that we participate in. This positions us well to achieve our ambitious growth aspirations of becoming an emerging markets FMCG leader.

This is a very exciting time for our company. We are driving a relentless focus on our strategy, and investing strategically in creating new growth vectors for the future, while continuing to drive our core to full potential, ensuring execution excellence and building on our agile and high performance culture. We believe that this is what differentiates us and allows us to continue to innovate and delight our millions of consumers across the world with superior quality, world-class products at affordable prices.

**"This is a very exciting time for our company. We are driving a relentless focus on our strategy, and investing strategically in creating new growth vectors for the future, while continuing to drive our core to full potential."**

### The global economy

The global environment continues to be marked by economic and socio-political uncertainty. Emerging markets are grappling with tougher conditions, given depreciating currencies and slower growth. The consequent slowdown in consumer sentiment has, in turn, impacted growth in the FMCG industry.

That said, we believe that there are significant medium and long-term growth prospects in India and our other emerging markets in the rest of Asia, South America and Africa. Today, emerging markets account for around 80 per cent of the world's population. They are also growing fast, with a relatively young working age population. This, combined with an emerging middle class, ensures that a majority of the increase in global consumption in the years ahead, will come from these markets.

### The Indian economy

Over the last year, the government has launched a series of initiatives to revive the Indian economy, including building infrastructure in

roads and railways, improving the ease of business, creating a more investor-friendly FDI policy regime, introducing banking reforms and targeting inflation.

Consequently, our macroeconomic indicators have started to look better, with GDP growth increasing to 7.6 per cent in fiscal year 2016, from 7.2 per cent in fiscal year 2015. Inflation is largely under control. The Consumer Price Index is expected to fall within the range of 5-6 per cent and Wholesale Price Index, virtually nil. Our Current Account Deficit is also under control. The implementation of transformative structural reforms such as the Goods and Services Tax, however, is imperative to fast track economic growth and boost consumer confidence.

We are seeing signs of a recovery in consumer demand in the FMCG industry. The progress has however been subdued. We expect demand to pick up pace in the months ahead. The fundamentals of the sector remain strong and there is still significant growth potential, given the low penetration and consumption rates for many FMCG categories.

### Perspectives on our performance

One of our most important imperatives is to extend leadership in our core categories and geographies. Our approach to international expansion is defined by a focused 3 by 3 strategy – a presence in three business categories (personal care, hair care and home care) in three geographies (Asia, Africa and Latin America). Our strategy will be to drive innovation led growth in the categories where we are leaders and have a competitive advantage.

Today, we rank among the largest household insecticide and hair care players in emerging markets. In household insecticides, we are the leader in India, the second largest player in Indonesia and are expanding our footprint in Africa. We are the leader in hair extensions in Africa, the number one player in hair colour in India and Sub-Saharan Africa, and among the leading players in Latin America. We rank number two in soaps in India and are the number one player in air fresheners and wet tissues in Indonesia. We

are also a leading player in hand sanitisers and female deodorants in the UK.

Our India business has continued to deliver a competitive performance, with industry-leading volume growth. Indonesia, our largest international business, grew well ahead of the FMCG market in the country. We have made good progress on the next phase of the integration of the Darling businesses in Africa. We also acquired Strength of Nature, a leading company of hair care products for women of African descent. This catapults us to become one of the largest players globally, serving the hair care needs of women of African descent. Our businesses in Latin America and the UK too, have performed well.

Accelerating the pace of innovation is a key strategic pillar and driver of our growth strategy. Over the last few years, we have rearchitected our approach. We are using design thinking to accelerate our innovation pipeline, reimagine our brands (Cinthol, Godrej Expert, Good knight) and create new ones (Godrej aer, protekt, BBLUNT).

We are ramping up capabilities, investing significantly in Research & Development and Design, and leveraging learnings from across our geographies. We have added to our product portfolio with a number of launches and relaunches, across India and our international businesses. Through this, we are driving penetration and increasing consumption in our core categories, as well as extending into attractive adjacencies. Our new products have been very well received in the market. In fact, close to 40 per cent of our growth in India now comes from new products and renovations. GCPL was ranked number 26, on Forbes' list of *The World's 100 Most Innovative Growth Companies 2016*.

We have introduced multiple initiatives to enhance our go-to-market approach and create a future ready sales organisation for our India business – strengthening our presence in rural, driving category penetration, increasing rural salience, leveraging technology for better decision-making and establishing a strong footprint in emerging channels like e-commerce.

**"We will continue to invest competitively in our brands, build on our strong sales and profitability growth momentum, and enhance our go-to-market infrastructure"**

Leveraging a best-in-class global supply chain to become more agile is imperative for us. We have established centres of excellence in TPM, lean, six sigma and low cost automation across our businesses. We are also strengthening and enhancing our supply chain processes, planning and replenishment capabilities to respond to constantly changing consumer demand patterns. We have made significant improvements in labour productivity through effective shop floor engagement and are leveraging our global scale to optimise procurement

costs. Driving sustainable manufacturing and supply chain practices, in partnership with our vendors, continues to be a priority and has resulted in significant improvements.

We take much pride in being an inspiring place to work and are committed to attracting and retaining the best global talent. We were ranked the number 1 FMCG company to work for in India in the *Great Place to Work Survey 2015*. This is our twelfth consecutive year on the list. We ranked number 9 on the *Great Place to Work - Best Workplaces in Asia 2016* list and were featured among Aon Hewitt's top 25 *Best Employers in India 2016*.

The Godrej Group has always actively championed social responsibility. We are deeply committed to driving the social progress of the communities that our businesses operate in. Godrej Good & Green is our vision for helping create a more inclusive and greener India, through 'shared value' initiatives that create both social and business benefits. As part of Good & Green, by 2020, we will aspire to train 1 million

rural and urban youth in skilled employment, create a greener India and innovate for good and green products. GCPL plays a key role in Good & Green through various employability and environmental sustainability initiatives.

#### Outlook

Going forward, we are confident of growing ahead of the market and delivering a stronger operating performance in fiscal year 2017. While some of our international markets will continue to face macroeconomic challenges, we believe that the opportunities are tremendous. We will continue to invest competitively in our brands, build on our strong sales and profitability growth momentum, and enhance our go-to-market infrastructure.

I would like to take this opportunity to acknowledge the many contributions, dedication and commitment of all our team members, which makes our company so successful. My deep appreciation to all our business partners, vendors and other business associates, for all their

contributions. To the various central and state government authorities, many thanks for all the support that they continue to extend. Finally, a special thank you to all our stakeholders for their interest, faith and encouragement through the years. We look forward to your continued support in the years ahead.

Yours sincerely,

Adi Godrej

# IN CONVERSATION WITH OUR MANAGING DIRECTOR

Managing Director

video message from  
our Managing Director

## How do you feel about GCPL's performance in the last year?

We delivered a reasonably good performance last year, across all our geographies, despite macroeconomic challenges. In India, we recorded industry leading volume growth. Our business in Indonesia navigated the slowdown well. We continued to scale up our presence in Africa. In Latin America and the UK too, we performed strongly.

Our profit growth in particular, has been robust. While this was undoubtedly aided by lower raw material costs, it was also due to the good work that our teams have done in improving gross margins. Gross margins increased by 440 basis points in India, 600 basis points in Indonesia and 370 basis points for our overall business.

But beyond the numbers - and this is what makes me proud - our performance reflects a great deal of resilience, in terms of how we adapt to and capitalise on changes in the environment. This will hold us in very good stead in the years ahead.

## **“Our performance reflects a great deal of resilience, in terms of how we adapt to and capitalise on changes in the environment.”**

### **GCPL was the best performing FMCG stock last year. What is your take on that?**

As I see it, stock performance is ultimately, an outcome. If you focus on the right areas and deliver, the market will reward you.

Our stock performance is a good validation of both our business performance and consistent focus on value creation. It also shows the confidence that investors have in us and their high expectations, in terms of future value creation. So, it energises us to work harder to continue to meet the expectations of all our shareholders, who put a lot of faith in us.

### **How was the year in terms of innovations?**

This year has been a mixed bag. While there are some positives that we can definitely take away, there are also some learnings. Some of the innovations that we had launched a couple of years ago, like Godrej Expert Rich Hair Crème (India's first hair colour crème in a sachet) and Good knight Fast Card (a revolutionary paper-based mosquito repellent), have been runaway successes

and continue to do well. We are also very excited by the potential of the innovations we launched in the latter half of last year - Godrej aer pocket (a slim gel technology bathroom air freshener), Cinthol Deostick (a unique cream based deodorant) and Soft & Gentle zero per cent aluminium deodorants (UK's first aluminium-free anti-perspirant deodorant). Some of our innovations however were also delayed. So, we are learning how to phase them out better and improve our speed to market.

Our innovation agenda for the year ahead looks promising, both in India and internationally. We will continue to invest behind these innovations and drive them to full potential.

### **How important is digital for you?**

Digital is one of the biggest transformations that we are seeing in recent times. This is not just about technology, but also fundamental shifts in how we communicate, connect, share, learn and engage.

While these are still early days for us, we are very excited about

the tremendous opportunities that this offers. Digital is a big priority for us, both in terms of how we engage with our consumers as well as how we engage internally with our teams.

In marketing, for example, we are driving focus on understanding the consumer journey, improving digital capabilities and more 'test and learn'. We are already seeing a significant shift in mindset, for instance, from a campaign led approach to more 24/7/365 marketing.

We recently introduced Facebook at Work, the new social networking platform, to connect Godrejites across teams and geographies. We are using it to chat and comment in real time, share ideas and collaborate much better.

### **Why did you acquire Strength of Nature? Is the US a new market for you?**

We are leaders in hair extensions in Africa. Over the last few years, we have successfully ramped up our presence in Africa. We have a good understanding of the African market and know what it takes to be successful in the region.

---

**"Our aspiration is to be global leaders in serving the hair care needs of women of African descent. The Strength of Nature portfolio will enable us to offer a full range of hair care products to women in Africa."**

Ethnic hair care is an adjacent category to hair extensions. Our aspiration is to be global leaders in serving the hair care needs of women of African descent.

The market in the US is at the forefront of innovation for these hair care products and shapes global consumer trends. Strength of Nature has a strong track record of serving consumers across Africa and the US for over 16 years. They are constantly innovating and have a robust portfolio of heritage, category leading hair care brands. So, this acquisition enables us to address the complete hair care needs of women of African descent and do so, globally. This makes it a valuable addition to our overall portfolio.

**How does the acquisition of Strength of Nature fit into your 3 by 3 strategy?**

The Strength of Nature portfolio will enable us to offer a full range of hair care products to women in Africa. Africa is a key priority market for us and hair care is one of our core focus areas. So, in that sense, this fits in well with our 3 by 3 approach - a presence in three business categories (personal

care, hair care and home care) in three geographies (Asia, Africa and Latin America).

Having said that, 3 by 3 is not a static definition. It has been evolving over time. For instance, air fresheners was not a big area for us 5-6 years ago. Now, it is 6 per cent of revenues and an important part of our home care portfolio.

Given our focus on serving the hair care needs of women of African descent, we are now adding a consumer overlay on our 3 by 3 approach. This is a very underserved market and provides significant opportunities for us, globally. So, we are extending our focus from hair care for women in Africa to include hair care for all women of African descent.

**Can we expect more acquisitions this year?**

We don't have any M&A targets per se. What is more important, is that we pursue accretive acquisitions that fit well with our strategy and where we can add value. So, we continue to look for acquisitions in our core geographies. We don't know which ones will materialise

and when. The good thing, however, is that we have plenty of growth opportunities available organically. We are not dependent on acquisitions for growth. To that extent, acquisitions will be an added bonus. Also, from a funding point of view, we have a lot of cushion in our balance sheet to make acquisitions that help us accelerate our growth trajectory.

**How are you changing your operating model and approach, as you get more global?**

As we get more global, it is important for us to leverage benefits of scale, while retaining an entrepreneurial, agile and empowered culture. A lot of our focus is on sharing, collaborating and cross-pollination. So, we have set up different platforms for our teams to discuss, learn and leverage strengths. At the same time, we are ensuring that we retain the operational autonomy of our local businesses. We don't want to become a multinational company, but instead continue to leverage the strong multi-local model that we believe is our advantage.

**You have consistently been ranked the best FMCG company to work for. What makes GCPL an employer of choice?**

For us, being an employer of choice is a very important part of our overall ambition of being a leading global FMCG player. We want to be able to attract passionate, hard-working team members, who are inspired to give their best at work. So, we take much pride in creating a supportive, enabling work environment with stretch roles and great career opportunities to help people learn and grow. We are fully committed to providing great rewards, aligned with value creation. We are also very fortunate to be able to build on the strong Godrej legacy of trust, integrity and respect for others.

**Some people have expressed concerns on your ROCE. What is your take on that?**

Clearly, we are very cognisant of this. Given that one of our most important focus metrics is EVA, ROCE is important for us.

Over the last three years, ROCE has gone up by 340 basis points. If you look at operating ROCE versus

reported ROCE, our operating ROCE has been very healthy (60 per cent plus), while reported ROCE has been lower due to the goodwill sitting on the books from acquisitions.

Lower reported ROCE is a consequence of the stage of growth we are in and our focus on an inorganic-supported strategy. At this stage, we need to take a call between accelerating revenues and profits or just maximising ROCE. But in emerging markets, given the growth potential, focusing on gaining scale and accelerating profits is equally important. It is not just about maximising ROCE.

Having said that, we are very conscious of improving our ROCE. As we gain more scale, we are focusing very hard on improving profit margins and working capital. This will lead to improved ROCE.

**What could you have done better last year?**

There are a couple of areas that I can think of, where we could have possibly done better last year. We should have managed our overheads more tightly. On the innovation front, our pace of

timely new launches could have been better. I also wish the macroeconomic environment had supported more robust sales growth. The good thing, however, is that our company is stronger than ever before and we have learned a lot. So, we are in a very good position to deliver a stronger performance in the year ahead.

**What are your key priorities this year?**

Overall, we want to continue to strengthen our market share, across categories, and deliver industry-leading profitable growth. Scaling up our Africa presence, integrating Strength of Nature and making the portfolio a success in Africa, will be a big focus for us. In line with our innovation agenda, we want to accelerate our new launches across geographies. Driving digital more strongly and ramping up capabilities will be key. We want to instill a deeper analytic approach to making key decisions and embed more leading edge technologies and predictive tools to improve performance. We will also continue our efforts to deepen our talent bench strength and improve engagement, to ensure we have the right people in place to drive our ambitious aspirations.

## Macroeconomic Environment

Over the last year, the government has launched a series of initiatives to revive the Indian economy, including building infrastructure in roads and railways, improving the ease of business, creating a more investor-friendly FDI policy regime, introducing banking reforms and targeting inflation.

Consequently, our macroeconomic indicators have started to look better, with GDP growth increasing to 7.6 per cent in fiscal year 2016, from 7.2 per cent in fiscal year 2015. ## FMCG Sector

We are seeing signs of a recovery in consumer demand in the FMCG industry. While the progress has been subdued, we expect demand to pick up pace in fiscal year 2017. Pro-growth initiatives by the government, such as the passing of the Goods and Services Tax Bill, will be greatly beneficial for this. The fundamentals of the industry remain strong and there is still significant growth potential, given the low penetration and consumption rates for many FMCG categories.

Our business has delivered strong and profitable growth, despite the challenges in the environment. Overall, we continue to outperform both the FMCG industry and the home and personal care categories that we participate in. # Good & Green

## Building a more inclusive and greener India

As a Group, we have always actively championed social responsibility. We are now exploring ways to further this commitment through 'shared value' initiatives that create both social and business benefits.

### As part of Good & Green by 2020, as a group we will aspire to:

#### Employability

##### Train 1 million youth in skills that will enhance their earning potential

As of March 31, 2016, GCPL has trained 1,36,422 youth in skills that will enhance their earning potential.

These programmes include:

- Beautician training for low income women
- Channel sales training
- Rural entrepreneurship training for women
- Sales training in general trade

#### Greener India

##### Achieve zero waste to landfill, carbon neutrality and a positive water balance, while reducing specific energy consumption and optimising the use of renewable energy

At a Group level, the progress achieved by our factories in improving environmental sustainability performance, compared to a 2011 baseline, is as follows:

Greener India Goal 2020	Achievement to date
Become carbon neutral	44% reduction in greenhouse gas emissions
Have a positive water balance	30% reduction in specific water consumption
Have zero waste to landfill	50% reduction in waste to landfill
Reduce specific energy consumption by 30%	36% reduction in specific energy consumption
Increase renewable energy sources by 30%	42% of total energy consumption from renewable resources

## Product Innovation

### **Generate a third of our portfolio revenues from 'good' and/or 'green' products**

Through innovation in our product pipeline, we are developing products that are safe and environmentally sustainable.

#### **Good knight Fast Card**

*About 3.3 billion people are at risk of malaria, worldwide. India alone sees 24 million cases of malaria each year, with 90 per cent of our population residing in malaria prone areas.*

*In rural India, in particular, penetration of household insecticides is very low because current products are either expensive or require electricity. With Good knight Fast Card, our idea was to launch a product that would break the price barrier (available at just ₹1 per card), work instantly and not require electricity.*

*We leveraged the idea of this revolutionary paper-based mosquito repellent from our Indonesia business and substantially modified the product for the Indian market.*

# Other disclosures

## Internal control systems and their adequacy

We have an Internal Control system to ensure that all assets are safeguarded and protected against loss from unauthorised use or disposition; and transactions are authorised, recorded and reported correctly.

Our Corporate Audit & Assurance Department, which is ISO 9001:2008 certified, issues well-documented operating procedures and authorities, with adequate built-in controls to be carried out at the beginning of any activity and during the interim of the process, to keep track of any major changes.

The internal controls are tested for effectiveness, across all our locations and functions. These are carried out through internal external audits and periodic review of the controls is undertaken by the management.

The GCPL Head Office and all major factories and offices across India follow an Information Security Management System, and are ISO/IEC 27001:2013 certified.

## Risks and concerns

With a presence across three continents - Asia, Africa and Latin America - we are exposed to risks that can adversely impact our operating performance, cash flows, financial performance, management performance and overall sustainability. We have an active risk management strategy in place. Additionally, we have a Risk Committee, whose role is to identify potential risks, create mitigation strategies and monitor the occurrence of risk. The risks that may affect us include, but are not limited to:

- Economic conditions
- Inflationary pressures and other factors affecting demand for our products
- Increasing costs of raw material, transport and storage
- Supplier and distributor relationships, and the retention of distribution channels
- Competitive market conditions and new entrants to the market
- Labour shortages and attrition of key staff
- Exchange rate fluctuation and arbitrage risk

- Integration risks for acquired companies
- Compliance and regulatory pressures including changes to tax laws
- Seasonal fluctuations
- Political risks associated with unrest and instability in countries where we have a presence or operations

Apart from domestic operations, the exercise of risk assessment is now getting extended to international geographies. The Risk Committee meets on a quarterly basis to review the status of risks, any new risks that may have emerged, as well as mitigation plans.

## Opportunities and threats

We believe that there are significant medium and long-term growth prospects in India and our other emerging markets in the rest of Asia, South America and Africa. Today, emerging markets account for around 80 per cent of the world's population. They are also growing fast, with a relatively young working age population. This, combined with an emerging

middle class, ensures that a majority of the increase in global consumption in the years ahead, will come from these markets.

The fundamentals of the sector remain strong and there is still significant growth potential, given the low penetration and consumption rates for many FMCG categories.

In terms of threats, the key threats are compliance and regulatory pressures including changes to tax law, seasonal fluctuations and unrest and instability in countries where we have a presence or operation.

We are proud to own and care for the largest privately managed belt of mangroves in Mumbai, since 1943

# BUSINESS RESPONSIBILITY REPORT

## Philanthropic efforts of the Godrej Group

The Godrej Group has been at the forefront of philanthropic and social activities for several decades. 24 per cent of the shares of the Group's holding company, Godrej & Boyce, are held in a trust that invests back in initiatives that support the environment as well as improve the quality and availability of healthcare and education. Through investment and oversight by the trust, a large tract of mangrove forests in Mumbai have been protected, developed, and maintained for several years and serve as a second set of lungs for the city. The Group has continually supported education and supports the Udayachal pre-primary and primary schools, which focus on the all-round development of children. The Udayachal high school has been accredited with the '*International School Award*' in recognition of the school incorporating global education into its curriculum and innovation into classroom teaching.

In addition, the Group has supported initiatives in healthcare through the Godrej Memorial

Hospital, which aims to provide quality healthcare at affordable costs. One such initiative is our partnership with Smile Train, a US-based NGO, which helps in performing corrective cleft lip and palate surgeries for children from low-income families. The Group offers surgery and hospitalisation to the patients free of cost.

## Table for Two

The Group continues to support the Indian chapter of Table for Two' initiated at the World Economic Forum India Summit in December 2009. Aimed at addressing hunger and malnutrition in the developing world, our involvement with the cause combines the Group's tradition of philanthropy and enables our team members to make a direct impact on someone's life. 116 of our team members support the cause and continue to make a contribution to the Akshaya Patra and the ISKCON Food Relief Foundation to provide meals to fight malnutrition in school children. The contribution supported over 1,580 children from schools in Maharashtra and Rajasthan.

## Teach For India

Since its inception in 2009, GCPL has been supporting Teach for India, which is a nationwide movement of outstanding college graduates and young professionals who will commit 2 years to teach full-time in under-resourced schools and who will become lifelong leaders working from within various sectors towards the pursuit of equity in education. In 2009, Teach for India began its journey in the classrooms with 78 Fellows (or teachers) in 2 cities across 34 schools and reached out to 3,000 children. The movement has grown in fiscal year 2015-16 to cover 329 schools in 7 cities with approximately 1,100 fellows, positively impacting nearly 38,000 children.

## Godrej Good & Green

In conjunction with our vision of 'Brighter Living' for all stakeholders, we have developed a long-term vision for playing an active part in creating a more inclusive and greener India. This vision has been named 'Godrej Good & Green', which is founded on shared value principle. The concept of shared

Brighter Giving is our skill-based, long-term volunteering programme for our team members who are keen to engage in meaningful volunteering projects

value is defined as policies and operating practices that enhance the competitiveness of a company while simultaneously advancing the economic and social conditions in the communities in which it operates. As part of this initiative, the Group aspires to create a more employable Indian workforce, a greener India and innovate for good and green products by 2020. Specifically, our Group-level goals for 2020 as part of this vision are as follows:

- Training 1 million rural and urban youth in skilled employment
- Achieving zero waste to landfill, carbon neutrality, positive water balance along with reducing our specific energy consumption and increasing proportion of renewable energy resources
- Having a third of our portfolio revenues from good and/or green products and services – defined as products that are environmentally superior or address a critical social issue for consumers at the bottom of the income pyramid.

These goals are supplemented by Brighter Giving, a structured

volunteering platform through which our team members can offer their time and skills to help address a non-profit organisation's needs. Through Brighter Giving, Godrejites can donate their time, knowledge, and skills to help address a non-profit organisation's specific needs, on a project basis.

Brighter Giving also serves as a channel through which our team members can connect with and learn more about Good & Green. The programme takes a long-term view, seeking to enable and drive meaningful impact for our non-profit partners and/or their beneficiaries. Volunteers accomplish this by using their professional skills and expertise to build relevant, implementable, and sustainable solutions for the organisations with whom they work.

The programme was launched in July 2013 with a starting cohort of 15 Brighter Giving volunteers. Since then, we have had over 100 Godrejites complete their volunteering projects in 4 cities. We partner with 2 organisations that are helping us connect our team members to relevant projects as per their own time

and convenience. 52 of our team members are a part of Brighter Giving.

We also organise short-term volunteering activities. The annual Godrej Global Volunteering Day is one such platform for our team members to connect with our communities more meaningfully. In 2015, over 700 of our GCPL team members across 9 countries volunteered in schools to spread the message on health, hygiene, and sanitation and engaged with over 7,000 children.

Furthermore, our team members are voluntarily opting out of the LPG subsidy in support of the nationwide GiveItUp campaign. We are also encouraging Godrejites to enrol anyone with limited access to social security under the Pradhan Mantri Suraksha Bima Yojana, a low-cost personal accident insurance scheme. As part of our disaster support, all our team members contributed their day's basic salary to the Nepal earthquake relief and the Chennai flood relief and rehabilitation.

GCPL's Sustainable Procurement Policy encourages its suppliers to use greener products and processes, and to reuse and recycle. We recommend that our suppliers identify sources of carbon emission and make progressive efforts towards reducing them. Suppliers should strive towards enhancing the efficiency and performance of the equipment. We expect our suppliers to assess their use of hazardous and toxic material and take necessary steps to reduce it, as much as possible. Toxic waste should be handled under professional guidance and mechanism should be adopted to dispose the waste to authorised waste processors by the

suppliers. We also recommend our suppliers to use renewable sources of energy, wherever possible, in order to become energy independent. Suppliers should try and take steps to reduce their packaging material. We encourage our suppliers to undertake steps to collaborate and associate with the local community for economic and social development by providing employment, helping in poverty eradication, and skill development within the local community, wherever relevant.

We will periodically review the policy to ensure that it continues to help us move

towards our vision. The suppliers will be encouraged to monitor their performance against the four pillars of the policy – ethically driven, socially focused, green inspired and quality centred supply chain.

You can view the detailed policy at [www.godrejcp.com/codes-and-policies.aspx](http://www.godrejcp.com/codes-and-policies.aspx)

**Sustainable Procurement Policy**

We have communicated the Policy to over 700 local suppliers in India. 80 of our major suppliers have come on board and have committed to adhere to the Policy.

In India, our demand-driven supply chain has led to mutually beneficial relationships with our suppliers and dealers. We have extended this to include partnerships with key Modern Trade players.

We have established an automated sourcing system that covers all consumer products globally and utilises practices such as the Theory of Constraints, Demand Driven Supply Chain, Total Productive Maintenance and Six Sigma. This initiative is designed to lower costs by reducing purchase and freight costs and wastage as well as to improve manufacturing yields.

We have always emphasised on procuring raw materials in a responsible manner. The amount of sustainably sourced palm oil that is used in place of crude oil derived products is showing an increasing trend. As a best practice, our procurement team looks at not only the initial cost but also the life-cycle cost. Among the available alternatives, we prefer the one with the lowest life-cycle cost for procurement.

We work closely with the suppliers and manufacturing team to explore and implement recycle and reuse programmes that are beneficial to the environment and create value addition to stakeholders.

**Has the Company taken steps to procure goods and services from local and small producers, including communities surrounding their place of work?**

**If yes, what steps have been taken to improve the capacity and capability of local and small vendors?**

Yes. All agri-based bulk materials, shippers, and plastic components are produced locally, closer to the plants. These vendors are given priority payments and technology and quality systems upgradation support.

As part of our community development initiative, we regularly source gift products in bulk from non-profits and self-help groups for our events. Some of our team members have also volunteered their time and skills to help build capability of these non-profits, as part of Brighter Giving, our structured volunteering programme.

**Does the Company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling of products and waste? (Separately as < 5%, 5%-10%, or >10%)**

Most of the waste like wrappers, stiffeners and packaging materials like bottles and corrugated boxes are sent to the vendors who recycle it. Spent lubricating oil is also sent to recyclers, majority of waste soap is recycled by the Company, and the rest is sent to small scale manufacturers. All our major units are certified by environment management system

We carried out a Community Needs Assessment across our priority factory locations to streamline our community development programmes

#### **Principle 4: Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalised**

The stakeholder engagement process consists of a variety of activities from stakeholder identification, consultation, prioritisation, collaboration and reporting. The identification of all relevant stakeholders and understanding their expectations is of high concern for GCPL in our quest to remain sustainable. We identify key stakeholders on the basis of their influence on our operations and our effect on them.

We have already identified and prioritised key stakeholders and we continue our engagement with them through various mechanisms, such as consultations with local communities, supplier/vendor meets, customer/employee satisfaction surveys, and investor forums. To align our community development programmes to the UN's sustainable development goals, we carried out a detailed community needs assessment

in 5 of our priority plant locations. We invited an external agency, Ethica Strategy, to carry out the assessment. The team followed a three-step approach, where they connected with our plant and corporate office and conducted extensive field-based assessments, backed by thorough secondary research to validate key facts and obtain additional information available from official sources. The result is a comprehensive report of the community, their needs, gaps in the system, and our way forward. We are now in the process of designing a framework to streamline our activities and plan and implement high impact community development programmes.

In our endeavour to maintain our relationship with our stakeholders, we have addressed all feedback reported in the last financial year.

### **Principle 6: Businesses should respect, protect, and make efforts to restore the environment**

Good & Green is driven by the desire to help create a more inclusive and greener India. Launched in 2011 as one of our 4 key imperatives for 2020, Good & Green is based on shared value, a principle that aligns business competitiveness and growth with social and environmental impact. At its root, lies the idea that companies can help solve critical social issues while strengthening their competitive advantage.

*Greener India - Achieving zero waste to landfill, carbon neutrality, energy*

efficiency, positive water balance and increasing usage of renewable energy.

*Good & Green products – Having a third of our portfolio revenues from good and/or green products and services.*

Our 'good' products are designed to address a critical social issue (e.g. healthcare and sanitation) for consumers at the base of the income pyramid. We define 'green' products as those that are environmentally sustainable.

We are continuously striving to achieve the goals and targets set under our 'Good and Green' initiatives. Our efforts for energy conservation in all our units have resulted in decreased specific energy consumption, specific water consumption, and Green House Gas (GHG) emissions. Specific energy consumption of has decreased from 807 kWh/t in 2014-15\* to 766 kWh/t in 2015-16. Specific GHG emission during the same period has decreased from 248 kg CO<sub>2</sub>e/t during 2014-15 to 230 kg CO<sub>2</sub>e/t for the year 2015-16.\*

\* We mentioned 820 kWh/ton in our 2014-15 annual report, as we were using default calorific value for biomass that was higher than the actual calorific value of the biomass we utilised. The calorific value was retroactively corrected to actual value as per the monthly laboratory analysis reports.

At Malanpur, we installed a 14 tph capacity biomass boiler to help us replace fossil fuel and utilise renewable energy resources

Specific waste sent to landfill has also been reduced from 1.06 kg/t in 2014-15 to 1.04 kg/t in 2015-16.

We are also using clean energy sources by shifting from fossil fuels to renewable fuels such as biomass utilisation in boilers and also procuring renewable energy. The renewable energy component has increased from 10.2 per cent during fiscal year 2014-15 to 15.4 per cent during fiscal year 2015-16. All the requirements of the Central Pollution Control Board and State Pollution Control Board have been complied with. Detailed checklists for compliance have been put in place. We continuously emphasise improving productivity and plant utilisation to improve specific consumption of water and energy. We have set targets for improvement in our environment performance for both short term as well as long term.

**Does the policy related to Principle 6 cover only the Company or extend to the Group/joint ventures/ suppliers/ contractors/NGOs/others?**

All of our major manufacturing units have policies on environment, health and safety measures. For

the subsidiaries and joint ventures, the policy is applicable in line with the local requirements prevailing in the country of operation. The Company encourages its business partners to follow the policy.

To achieve our goals and ensure ethical conduct, it is essential that our suppliers share our values and vision and raise the sustainability standards in our supply chain. We acknowledge that long-term sustainable development of our suppliers is critical to our joint success and we value our relationship with suppliers who share the same approach and vision in doing business. In line with our commitment to building a greener India, we have developed a Sustainable Procurement Policy this year, which is an extension of our values and is applicable to all GCPL suppliers.

We will periodically review the policy to ensure that it continues to help us move towards our vision. The suppliers will be audited to monitor the performance against the 4 pillars of the policy: ethically driven, socially focused, green inspired, and quality centred supply chain.

Specifically, our Group level goals for 2020 as part of this vision, are:

- Training 1 million rural and urban youth in skilled employment
- Achieving zero waste to landfill, carbon neutrality, positive water balance along with reducing our specific energy consumption and increasing proportion of renewable energy resources.

**Are the programmes/ projects undertaken through in-house team/own foundation/external NGO/government structure/any other organisation?**

Our flagship programme, Godrej Saloni trains young girls and housewives in beauty and hair care. More than 26,000 candidates have graduated from this programme in fiscal year 2015-16. Of this, over 8,200 were part of the school programme. Since the inception of the programme in 2011, we helped 61,975 girls and women, gain employable skills and become financially independent.

We run the Saloni programme in 221 centres across India. Our in-house programme of 3 months has been built to skill the candidates in basic beauty, skin, and hair care. The Saloni course curriculum has been recognised by industry peers and we are affiliated to the Beauty & Wellness Sector Skill Council that is promoted and supported by the Confederation of Indian Industry and the National Skill Development Council, respectively. Our training

module is now part of the national training curriculum.

We have developed an audio-visual demonstrative learning video of the entire curriculum. The module creates simulations of a salon, helps in learning, and improves comprehension and understanding of work-place safety guidelines and hygiene standards. We have also designed an app-based tablet version of it for easy sharing of our curriculum. Separate modules on enterprise development and employment readiness have also been developed for the beneficiaries of all employability programmes to set them up for success early in their career. We have recently introduced a life skills approach in our module, to equip our graduates with basic soft skills to enhance their employment prospects.

Through our partnerships, we have been able to help 60 per cent of our graduates find jobs in salons and recognised parlour chains. Nearly 40 per cent of our graduates work as freelancers or micro entrepreneurs using their new skills to generate income.

Godrej Vijay, our training programme for youth in channel sales aims at bridging the talent gap across FMCG and other allied industries

The school girls' programme in beauty and wellness is offered in standard 9 as an elective subject. The programme is offered from standard 9 to 12. An after-school programme was also started to enrol students of standard 10.

As FMCG and other similar industries expand in India, a ready pipeline of skilled talent for sales, particularly in rural areas, will be an essential enabler for growth. The industry currently records high attrition of entry-level sales representatives. This can be partly attributed to the lack of requisite skills, leading to an inability to meet targets and manage pressure at work. Godrej Vijay, our training programme in channel sales, was launched in 2011 to help skill unemployed youth and build a talent pipeline for the industry. The programme has trained 22,000 youths across 44 locations in channel sales. The participants undergo 40 hours of training; one-half of which is spent in the classroom and the other half in experiential learning. The programme has been specially designed for the purpose of training distributor sales resources. Graduates of the programme may

be placed with any of the Godrej companies or even other Company distributors in the vicinity of the training centre. More than 75 per cent of our Vijay graduates have been placed in the FMCG sector.

Godrej Prerna is our retail management training programme. The programme helps retail shop owners and in-shop associates build skills relevant to General Trade. It aims at equipping the small retailers with skills to compete against the organised retail stores. The programme for in-shop retail associates involves training in stock and shelf management. It helps shop owners know their products and understand the growth drivers of the business. The other training programmes, for training shop owners, helps them understand the drivers of their business as well as how to efficiently manage stock and interact with customers. It also covers general trends in retail and self-service stores. This year, 3,500 people graduated from the programme.

#### **Have you done any impact assessment of your initiative?**

We regularly evaluate all our training programmes. This year, we have partnered with an independent third-party research organisation to help us carry out a semi-longitudinal impact assessment of our programmes.

#### **What is your Company's direct contribution to community development projects?**

In the fiscal year 2015-16, the Company has spent ₹ 14.57 crore on CSR initiatives, which is 2.04 per cent of average net profits of the last 3 years, calculated in the manner specified in Section 135 of the Companies Act, 2013 read with rules thereunder.

#### **Principle 9: Businesses should engage with and provide value to their customers in a responsible manner**

We are a customer-centric company and greatly value the trust, satisfaction, and loyalty of our customers across the world. Our primary focus is on delighting our external and internal customers. Customer centricity

is part of the Group's Code of Conduct. We strive to ensure that customer needs are satisfied and that our products and services offer value to the customer.

Our customer focus not only extends to external customers but also includes internal customers. We firmly believe that external customer satisfaction can be attained only if the internal customers' needs and reasonable expectations are met; our employees are strongly encouraged to act in accordance with this principle.

# DIRECTORS' REPORT

Your Directors, with pleasure, present their Report along with the Audited Accounts for the year ended March 31, 2016.

## 1. Review of Operations

This year too, your Company has continued to grow ahead of the overall FMCG sector, as well as the home and personal care categories that it participates in, despite a challenging macro environment.

Godrej Consumer Products Limited's (**'GCPL'**) expanding footprint is driven by a focused 3x3 strategy – a presence in three business categories (personal care, hair care, and home care) across three geographies (Asia, Africa, and Latin America).

Despite challenges across geographies, its businesses have performed well, with the Company's salience of international revenues at 47%. During the year, GCPL's consolidated sales increased by 11% and EBITDA by 21% in

organic constant currency terms. India business net sales increased by 9% driven by 11% volume growth.

In our international business, our sales growth of 14%, in organic constant currency terms, was led by strong growth in Africa and Latin America. The standalone net profit grew by 13% at ₹ 740 crore as compared with previous year net profit of ₹ 654 crore and the consolidated net profit grew by 23% at ₹ 1,119 crore as compared with previous year net profit of ₹ 907 crore.

GCPL's focus has been to accelerate innovation and back new products with strong marketing investments. In the past year, GCPL made several new launches in the domestic and international businesses, which are expected to further enhance the company's competitiveness, improve the brand equity, and drive increased penetration and consumption. More than 40% of GCPL's growth now comes from

new products and renovations. It was also the highest ranked Indian company (at number 24) on Forbes' list of the '*World's 100 Most Innovative Growth Companies 2015*', for the second year in a row.

Today, GCPL is one of the largest household and personal care companies in India; the leader in hair colour, household insecticides, and liquid detergents, and the number 2 player in toilet soaps and air care. Significant marketing investments have driven higher consumption and penetration across the board. GCPL's superior global supply chain and future ready sales organisation leverage the latest technology for sharper execution and better decision making, thus strengthening market positions.

It was ranked the number 1 FMCG company to work for in the '*Great Place to Work-Best Workplaces in India 2015*' list; its twelfth consecutive year on the list. It was also ranked number 9 on

the 'Great Place to Work - Best Workplaces in Asia 2016' list

such as fixed and variable compensation, long-term incentives, benefits and perquisites, and non-compensation elements (career development, work-life balance, and recognition).

#### Highlights

The rewards framework offers the employees the flexibility to customise different elements on the basis of need. It is also integrated with GCPL's performance and talent management processes and designed to ensure sharply differentiated rewards for our best performers.

3. 'Variable Compensation (Performance Linked Variable Remuneration)' rewards employees for delivering superior business results and individual

performance. It is designed to provide a significant upside earning potential without cap for over-achieving business results. It has a 'Collective' component, linked to the achievement of specified business results, measured by Economic Value Added or other related metrics, relative to the target set for a given financial year and an 'Individual' component, based on Employee's performance, as measured by the performance management process.

#### **Long-Term Incentives (Employee Stock Grant Scheme)**

### CSR REPORT

#### I A brief outline of the Company's CSR policy, including an overview of projects or programmes proposed to be undertaken, with a URL to the CSR policy and initiatives

GCPL is committed to the Godrej Group's 'Good & Green' vision of creating a more inclusive and greener India. The Good & Green CSR policy focuses on addressing critical social, environmental, and economic needs of the marginalised and less privileged sections of the society. Through our Good & Green CSR policy, we align our CSR strategy with the Godrej Group's Good & Green vision and goals. We adopt an approach that integrates the solutions to these problems into the strategy of the company, to benefit communities at large and deliver social and environmental impact.

The Company has framed a CSR policy in compliance with the provisions of the Companies Act, 2013. The policy as well as projects and programmes falling under the CSR policy are on the Company website. The same may also be accessed through the link given below.<sup>[4]</sup>

An overview of projects or programmes undertaken during FY 2015-16 is given below:

##### 1. Project SALONi

Godrej SALONi is a programme that trains young

girls and women in beauty and hair care. More than 26,000 candidates have graduated from this programme in FY 2015-16. The programme is currently operational in 226 centres across India. An in-house programme of 500 hours has been built to train the candidates in basic beauty and hair care skills. In addition, the curriculum has been integrated with Life skills and Entrepreneurial component to equip the candidates in starting their own enterprise in future. The curriculum has been digitised and is available as audio-visual content.

Through our partnerships, we have been able to help 60% of the trained women in finding jobs in recognised beauty parlour chains, while the rest of the trainees work as freelancers or micro entrepreneurs.

##### 2. Project Vijay

As Fast Moving Consumer Goods and other similar industries expand in India, a ready pipeline of skilled talent for sales, particularly in rural areas, will be an essential enabler for growth. The industry currently records high attrition of entry-level sales representatives. This can be partly attributed to the lack of requisite skills, leading to an inability to meet targets and manage pressure at work.

Godrej Vijay, our training programme in channel sales, was launched in 2011 to help train unemployed youth and build a talent pipeline for the industry.

The programme has trained 22,000 youth across 26 locations in channel sales in FY 2015-16. The youth undergo 40 hours of training—half of which is spent in the classroom and the other half as experiential learning. The programme has been specially designed for the purpose of training distributor sales resources.

##### 3. Project Prerna

Godrej Prerna is part of the Godrej Good & Green vision for 2020, which aims to skill 1 million youth in skilled employment. Objectives of the course are as follows:

- To improve the entrepreneurial ability of retailers. Topics covered include business drivers and key measures, stock management, principles of display, interacting with customers, trends in retail and self-service stores.
- To improve sales skills of in-shop retail associates. Topics covered include basic IT, communication and workplace ethics, stock management and shelf management, knowing

[4] <http://www.godrejcp.com/Resources/pdf/CSR-Policy.pdf>.

products, growth drivers for business, basic interaction skills, selling skills, customer service skills, and building yourself. In total, 3500 candidates have been trained under Prerna in FY 2015–16.

#### **4. Project Sakhi**

Godrej Sakhi is a programme that trains rural women to become entrepreneurs. These women traditionally advance their family incomes by managing a combination of small farm and non-farm microenterprises (both dependent on the vagaries of seasons and markets).

This programme aims to teach rural women –who are either engaged in some form of entrepreneurship or plan to do so – in skills of market opportunity spotting, projecting revenues and earnings, sales and marketing, and time and financial management. In FY16, the project has been discontinued on a stand-alone basis and has been integrated with SALONI as an entrepreneurial training for SALONI trainees in urban and peri-urban areas.

#### **5. Behaviour Change Communication on Malaria and Vector Borne Diseases**

The project aims to reduce mortality caused by Vector Borne Diseases (VBDs) by 100 per cent in two districts of Madhya Pradesh through

community mobilisation and behaviour change communication.

The approach towards the project is as follows:

- Implement specific behaviour change communication interventions at community and household level to spread awareness and encourage health seeking behaviour for prevention and control of VBDs.
- Strengthen linkages with public and private health services in the prioritised blocks to improve preventive and curative services for VBDs.
- Generate evidence to support scaling-up the project across Madhya Pradesh.

#### **6. Community Needs Assessment (Ethica Strategy)**

The project involves assessment of the needs of the communities in and around Godrej factory locations for designing and implementing structured and impactful programmes that improve the socio-economic well-being of these communities. # REPORT ON CORPORATE GOVERNANCE

## COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Corporate governance refers to the framework of rules and practices by which the board of directors ensures accountability, fairness, and transparency in a company's relationship with all its stakeholders.

The Company is a part of the 119-year-old Godrej Group, which has established a reputation for honesty, integrity, and sound governance.

The Company's philosophy on corporate governance envisages attainment of the highest levels of transparency, accountability, and equity in all facets of its operations and in its interactions with its stakeholders, including shareholders, employees, lenders, and the government. The Company is committed to achieve and maintain the highest standards of Corporate Governance. The Company believes that all its actions must serve the underlying goal of enhancing overall stakeholder value over a sustained period of time.

Since FY 2002-03, every year Godrej Consumer Products Limited

(GCPL) has subjected itself to a voluntary review of its corporate governance practices by an external rating agency viz., the Investment Information and Credit Rating Agency (ICRA). During the year 2015-16, ICRA has reaffirmed the Corporate Governance rating of CGR2+ (pronounced as CGR two plus) and Stakeholder Value Creation and Governance Rating of SVG1 (pronounced as SVG one).

The two ratings evaluate whether a Company is being run on the principles of corporate governance, and whether the practices followed by the Company lead to value creation for all its shareholders.

The CGR2 rating is on a rating scale of CGR1 to CGR6, where CGR1 denotes the highest rating. The CGR2+ rating implies that in ICRA's current opinion, the rated Company has adopted and follows such practices, conventions, and codes as would provide its financial stakeholders a high level of assurance on the quality of corporate governance.

The SVG1 rating is on a rating scale of SVG1 to SVG6, where SVG1 denotes the highest rating. The SVG1

rating implies that in ICRA's current opinion, the Company belongs to the highest category on the composite parameters of stakeholder value creation and management as also corporate governance practices.

### 1. Board of Directors

GCPL's corporate governance practices are shaped by its Board of Directors. The Board is committed to protecting the long-term interests of all our stakeholders, and considering this, it provides objective and prudent guidance to the management. The information relating to procedures, composition, committees, etc. of the Board is provided below.

#### A. Board Procedures

GCPL currently has a 12-member Board, with 6 Independent Directors who are eminent professionals from diverse fields, with expertise in finance, information systems, marketing, and corporate strategy. None of the Independent Directors have had any material association with the Godrej Group in the past. GCPL's Board has a lead Independent Director, in line

with accepted best practices, to strengthen the focus and quality of discussion at the Board level.

The Board meets at least once in a quarter to review the Company's quarterly performance and financial results. Board meetings are governed with a structured agenda. The Board periodically reviews the compliance reports with respect to laws and regulations applicable to

the Company. Before the commencement of the Audit Committee meeting, members of the Audit Committee—which entirely consists of Independent Directors—have a discussion with the Statutory Auditors, in the absence of the management team or Whole-time Directors. For all major items, comprehensive background information is provided to the Board members to enable them to take an informed decision. Once a year, the Board

members participate in a strategy meeting, in which it also interacts with the management team of the Company. The Independent Directors also have a meeting amongst themselves, after which they provide their insights to the entire Board and the management team. During the year, the Independent Directors were imparted training programmes. Details of the same are available under the link given below. [1]

not opted for the above system may provide the required data to Computech Sharecap Limited in the requisite form, which can be obtained either from GCPL's registered office or Computech Sharecap Limited or downloaded from the Investors page on the GCPL website [www.godrejcp.com](http://www.godrejcp.com). It may be noted that if the shareholders holding shares in demat form provide the details directly to the Company, the Company will not be able to act on the same and consequently dividends cannot be remitted through electronic credit.

## **INDEPENDENT AUDITOR'S REPORT**

### **TO THE MEMBERS OF GODREJ CONSUMER PRODUCTS LIMITED**

#### **Report on the Standalone Financial Statements**

We have audited the accompanying standalone financial statements of GODREJ CONSUMER PRODUCTS LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2016, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### **Management's Responsibility for the Standalone Financial Statements**

The Company's Board of Directors is responsible for the matters in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design implementation

and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit

procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

#### **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2016 and its profit and its cash flows for the year ended on that date.

#### **Emphasis of Matter**

We draw attention to:

Note 11(b) regarding the Scheme of Amalgamation of the erstwhile Godrej Household Products Limited with the Company approved by The Hon'ble High Court of Judicature at Bombay, whereby an amount of ₹ 52.75 crore for the year ended March 31, 2016, equivalent to the amortization of the Goodknight and Hit Brands is directly debited to the General Reserve Account instead of debiting the same to the Statement of Profit and Loss as per the provisions of AS 26. The said accounting treatment is in accordance with the

accounting treatment prescribed in the Order of the High Court of Mumbai dated February 28, 2011 under section 394 of the Companies Act, 1956.

Had this amount been charged to the Statement of Profit and Loss, the profit for the year ended March 31, 2016, would have been lower by ₹ 52.75 crore and the General Reserve would have been higher by ₹ 52.75 crore.

Our opinion is not modified in respect of this matter.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the Order.

  - c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
  - d) Except for the matters

described in the Emphasis of Matter paragraph above, in our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- e) On the basis of the written representations received from the directors as on March 31, 2016 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2016 from being appointed as a director in terms of Section 164 (2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure B.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - i. The financial statements disclose the impact of pending litigations on the financial position of the Company – Refer Note 31 to the financial statements.

### **Meaning of Internal Financial Controls over Financial Reporting**

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The respective Board of Directors of the companies included in the Group and associate are responsible

for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these Consolidated Financial Statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Financial

Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the Consolidated Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the Consolidated Financial Statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

#### **Opinion**

In our opinion and to the best of our information and according to the explanations given to us,the aforesaid Consolidated Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity

with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, and its associate as at March 31, 2016, their consolidated profit and their consolidated cash flows for the year ended on that date.

#### **Emphasis of Matter**

We draw attention to Note 13(b) to the Consolidated Financial Statements regarding the Scheme of Amalgamation of the erstwhile Godrej Household Products Limited with the Company approved by The Hon'ble High Court of Judicature at Bombay, whereby an amount of ₹ 52.75 crore, for the year ended on March 31, 2016, equivalent to the amortization of the Goodknight and Hit Brands is directly debited to the General Reserve Account instead of debiting the same to the Statement of Profit and Loss as per the provisions of AS 26. The said accounting treatment is in accordance with the accounting treatment prescribed in the Order of the High Court of Mumbai dated February 28, 2011 under section 394 of the Companies Act, 1956.

Had this amount been charged to the Statement of Profit and Loss, the profit for the year ended March 31, 2016 would have been lower by ₹ 52.75 crore and the General Reserve would have been higher by ₹ 52.75 crore.

Our opinion is not modified in respect of this matter.

#### **Other Matters**

- b) The consolidated financial statements also include the Group's share of net profit of ₹ 0.10 crore for the year ended March 31, 2016, as considered in the consolidated financial statements, in respect of an associate, whose financial statements have not been audited by us. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.
- Our opinion on the consolidated financial statements and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the

reports of the other auditors and the financial statements certified by the Management.

Referred to in Para 1 (f) 'Report on Other Legal and Regulatory Requirements' in our Independent Auditor's Report to the members of the Company on the Consolidated Financial Statements for the year ended March 31, 2016.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over

financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the

possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Holding Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

The Company has prepared these financial statements under the historical cost convention on an accrual basis to comply in all material respects with the Accounting Standards specified under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and other accounting principles generally accepted in India and the relevant provisions of the Companies Act 2013. The accounting policies have been consistently applied by the Company.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria's set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time taken between acquisition of assets for processing and their realization in cash and cash equivalent, the Company has ascertained its operating cycle as twelve months for the purpose of the classification of assets and liabilities into current and non-current.

#### b. Use of Estimates

The preparation of financial

statements in conformity with Generally Accepted Accounting Principles requires the Management to make estimates and assumptions that affect the reported balances of assets and liabilities as of the date of the financial statements and reported amounts of income and expenses during the period. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from the estimates and differences, if any, are recognized in the period in which the results are known / materialize.

#### c. Fixed Assets

Fixed assets are stated at cost (net of cenvat credit and capital subsidy / grant wherever applicable) less accumulated depreciation and impairment losses, if any. The cost includes cost of acquisition, construction, erection, installation etc., preoperative expenses (including trial run) and borrowing costs incurred during construction period of the qualifying assets. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets.

#### d. Asset Impairment

Management periodically assesses, using external and internal sources, whether there is an indication that an asset may be impaired. An impairment loss is

recognized whenever the carrying value of the asset exceeds its recoverable amount. Recoverable amount is higher of an asset's net selling price and its value in use. An impairment loss, if any, is recognised in the Statement of Profit & Loss in the period in which the impairment takes place.

#### e. Borrowing Costs

Borrowing costs that are directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is ready for its intended use or sale. Other borrowing costs are recognised as an expense in the period in which they are incurred.

#### f. Operating Leases

Leases of assets under which significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease payments/receipts under operating leases are recognised as an expense/income on a straight-line basis over the lease term.

Investments are classified into current and non-current investments. Investments that are readily realizable and are intended to be held for a period less than twelve months from the date on which such investments are made are classified as 'Current Investments'. Investments

other than Current Investments are classified as 'Non-Current Investments'.

Current Investments are stated at lower of cost and fair value and the resultant decline, if any, is charged to Statement of Profit & Loss. Non-Current Investments are carried at cost. Provision for diminution, if any, in the value of each non-current investment is made to recognise a decline, other than of a temporary nature.

#### **h. Inventories**

Inventories are valued at lower of cost and net realizable value. Cost is computed on the weighted average basis and is net of CENVAT credits. Finished goods and work in progress include cost of conversion and other costs incurred in bringing the inventories to their present location and condition. #### **o. Employee share based payments**

The Company measures compensation cost relating to employee stock options and stock grants using the intrinsic

value method and compensation expense, if any, is amortised over the vesting period of the option on a straight line basis.

#### **p. Depreciation and Amortisation**

Depreciation is provided, under the Straight Line Method, pro rata to the period of use, based on useful lives specified in Schedule II to the Companies Act, 2013 except the following items where useful lives estimated by the management based on internal technical assessment, past trends and expected operational lives differ from those provided in Schedule II of the Companies Act 2013 :

#### **Tangible Assets**

- (i) Leasehold land is amortised equally over the lease period.
- (ii) Leasehold Improvements are depreciated over the shorter of the unexpired period of the lease and the estimated useful life of the assets.
- (iii) Office Equipments are depreciated over 5 to 10 years.
- (iv) Tools, dies and moulds are depreciated over a period of 9 years and 3 years respectively.
- (v) Vehicles are depreciated over a period ranging from 5 years to 8 years depending on the use of vehicles.
- (vi) In some of the subsidiaries, useful lives are estimated to be lower as compared to useful lives defined in Schedule II of the Companies Act 2013 for certain class of assets due to geographical environment.

#### **Intangible Assets**

Intangible assets are amortised on straight line basis as given below:

- i) Software license is amortised over a period of 6 years.
  - ii) SAP licenses acquired pursuant to the Scheme of the Amalgamation of the erstwhile Godrej Household Products Limited (GHPL) with the Company are amortised over a period of 4 years. The cost of SAP licenses incurred for certain subsidiaries are being recovered from respective subsidiaries.
  - iii) Trademarks acquired are amortised equally over the best estimate of their useful life not exceeding a period of 10 years, except in the case of Goodknight, HIT, Kinky, Soft & Gentle and Pamela Grant & Milleofiori brands where the brands are amortised equally over a period of 20 years. **q. Taxes on Income**

Current tax is the amount of tax payable on the taxable income for the year determined in accordance with the provisions of the Income-tax Act, 1961.

Deferred tax subject to consideration of prudence is recognised on timing differences; being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

Deferred tax asset / liabilities in respect of timing differences which originate and reverse during the tax holiday period are not recognised. Deferred tax assets are recognized and carried forward only to the extent that there is reasonable certainty that sufficient future

taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets on unabsorbed tax losses and tax depreciation are not recognized unless there is virtual certainty supported by convincing evidence that future taxable income will be available against which such deferred tax assets can be realized. MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal tax during specified period. The tax effect is calculated on the accumulated timing differences at the year-end based on the tax rates and laws enacted or substantially enacted on the balance sheet date.
